

Project Demo Planning

Date	02 July 2026
Team ID	XXXXXX
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, objectives, and agricultural challenges addressed by OptiCrop.	2	Kongara Charishma
2	Solution Overview	Explain the system architecture, workflow, technology stack, and machine learning approach.	3	K U Harshitha
3	Live Feature Demonstration	Demonstrate user login, soil & environmental data input, crop recommendation, and crop suitability prediction.	5	Homa Rugvedha Chappidi
4	Results & Reports	Show prediction results, recommendation dashboard, and explain the output.	2	Divya Sree Sai Pagadala
5	Testing & Deployment	Demonstrate application testing, deployment, and discuss system reliability.	2	Mamatha Setharasipalli
6	Conclusion & Future Enhancements	Summarize project outcomes, benefits, future scope, and answer audience questions.	1	All Team Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly explain the need for intelligent crop recommendation in agriculture.
2	Solution Overview	Describe the OptiCrop architecture, workflow, and machine learning model.
3	Live Feature Demonstration	Demonstrate entering soil parameters (N, P, K, pH, temperature, humidity, rainfall) and show the recommended crop.
4	Q&A Session	Answer questions from the faculty and explain the project's benefits and future enhancements.
